

The easy way to save for the whole family.

Forward-looking, sustainable, sensible.

We help parents to set funds aside for their children's future in a sustainable way.

Lay the foundation stone for your child's financial future and open an account – it only takes a few steps. The Clanq app offers families a unique combination of a bank account and an opportunity to save together: when you shop using your Clanq card – be it in store or online – you can also collect up to 25% cashback. This money lands in your children's piggy banks automatically. The bank account allows you to make deposits and withdrawals, but also to set up savings targets and rules, making it easy for you to save for your children.

The advantages of the Clanq Visa Debit card.

The Clanq Visa Debit card accompanies you through day-to-day life for **contactless, online and mobile payments.**

You can use it to pay in store, with your smartphone and online, store your card details for recurring payments in apps and on websites, withdraw cash in the local currency across the globe or to book hotels and rent cars – always collecting cashback in the process.
